JINSEONG PARK

jinseong@kias.re.kr | https://jinseongp.github.io/ | jinseongP | scholar

Summary

Affiliation	Korea Institute for Advanced Study (KIAS), Seoul, Republic of Korea
	Center for AI and Natural Sciences, AI Research Fellow (Mar 2025 - Present)
Research Topics	Safety and Generalization of Generative Deep Learning Models

Field of Interest

Safe and Trustworthy AI

- Generative modeling concerning responsible AI.
  - [C5] analyzes the fair sampling of diffusion models to generate obfuscated sensitive attributes in synthetic data without relying on classifiers.
  - [C6] investigates a framework that leverages recent diffusion models to amplify the information in limited data for differentially private training.
  - [P6] investigates a safeguarding method for membership inference in Large Language Models (LLMs) and their Retrieval-Augmented Generation (RAG).
- Differentially private training to mitigate privacy-utility trade-offs.
  - [C3] investigates the strength of flat minima for gradient perturbation and proposes a new sharpness-aware optimization method designed for differentially private deep learning.
  - [J2] proposes a privacy-preserving kernel support model using dynamical systems.
- Generalization to mitigate the performance gap between training and test accuracies.
  - [C2] analyzes the Hessian matrix of neural network parameters and investigates the Jacobian subspace for generalization.
  - [C4] presents a large-scale analysis of robust overfitting to find effective measures for robust generalization against adversarial attacks.
- Adversarial defenses against various attacks to address AI safety.
  - [C1] improves certifiable training against adversarial attacks by analyzing the smoothness of the loss landscape.
  - [J3, J1] analyze the transferability of audio adversarial examples and present transferable adversarial attacks and detection methods by injecting additive noise.

Reliable Time Series Models

- Generative diffusion models to simulate temporal time series data.
  - [P3] designs a diffusion bridge for better diffusion prior selection in time series synthesis models.
  - [J5] enhances financial simulation with synthetic images of price charts by training diffusion models on financial price chart images.
- Forecasting and real-world applications, such as in finance.
  - [C7] proposes an efficient architecture for long-range time series forecasting by eliminating self-attention and leveraging cross-attention mechanisms instead.
  - [J4] proposes a time-efficient optimization method for time series classification and forecasting by capturing the trend and seasonal components of time series data.

Note: [J#], [C#], and [P#] denote Journal, Conference, and Preprint numbers below, respectively.

Research Experience

Mar 2025 - Present — AI Research Fellow, Korea Institute for Advanced Study (KIAS)
- Center for AI and Natural Sciences, Seoul, Republic of Korea
- Supervisor: Jeong Han Kim

Jun 2025 - Aug 2025 — (Visiting) Postdoctoral Research Fellow, University of British Columbia (UBC)
- Computer Science, Vancouver, British Columbia, Canada
- Host: Mijung Park

Education

Mar 2022 - Feb 2025 — Ph.D. in Industrial Engineering, Seoul National University
- [Thesis] Generalization Frameworks for Temporal and Private Deep Learning: From Synthetic Data Generation to Robust Optimization
- Supervisor: Jaewook Lee
- Cumulative Major GPA: 3.94/4.30

Mar 2020 - Feb 2022 — Master of Science in Industrial Engineering, Seoul National University
- [Thesis] Differentially Private Multi-class Classification Using Kernel Supports and Equilibrium Points
- Supervisor: Jaewook Lee
- Cumulative Major GPA: 4.19/4.30

Mar 2019 - Aug 2019 — Student Exchange Program, Technische Universität Graz (TU Graz)
- Bachelor's program in Mechanical Engineering, Graz, Austria

Mar 2016 - Feb 2020 — Bachelor of Science in Industrial and Management Engineering, Pohang University of Science and Technology (POSTECH)
- Graduated with Honors: Summa Cum Laude (rank: 1/22)
- Cumulative GPA: 3.91/4.30, Major GPA: 4.03/4.30

Publications

† indicates equal contribution.

Patents

[Patent Application] 10-2023-0087024, Korea Jun 2023

- 적대적 음성 예제를 감지 방법 및 시스템 (METHOD AND SYSTEM FOR DETECTING ADVERSARIAL SPEECHEXAMPLE)

[Patent Application] 10-2023-0087006, Korea Jul 2023

- 적대적 음성 예제 생성 방법 및 시스템 (METHOD AND SYSTEM FOR GENERATING ADVERSARIAL SPEECHEXAMPLE)

[Patent Application] 10-2023-0073178, Korea Jul 2023

- 커널 서포트 벡터에 기반한 차분 프라이버시 다중 분류 학습을 위한 장치 및 방법 (Apparatus and Method for Learning Differential Privacy Multi-Classification Based on Kernel Support Vector)

Projects

[Industrial Project] COSMAX, Seoul, Korea Dec 2023 - Feb 2024, Jun 2024 - Sep 2024

- Prediction and Generative Neural Networks for Color Cosmetics

[Research Intern] IDEA Lab, Pohang, Korea Sep 2019 - Dec 2019

- Industrial Data Engineering & Analytics Lab, hosted by Prof. Hyunbo Cho at POSTECH

[Industrial Intern] SK Telecom, Seoul, Korea Jun 2018 - Aug 2018

- R&D Digital Transformation Team Intern
- Developed services for R&D Digital Transformation of internal data clusters

[Industrial Project] LNG industry, POSCO Energy, Pohang, Korea 2018

- Researcher, with Prof. Ribin Seo at POSTECH
- Organized LNG value chains and strategic implications of POSCO Energy

Invited Talks

Trustworthy Generative AI

- KIAS Center for AI and Natural Sciences Workshop, Jeongseon, Korea May 30, 2025
- Korean Society for Industrial and Applied Mathematics (KSIAM), Seoul, Korea May 17, 2025

Deep learning with Differential Privacy

- UNIST Department of Industrial Engineering, Ulsan, Korea Jun 11, 2025
- KIAS School of Computational Sciences Workshop, Gangneung, Korea May 22, 2025
- KIAS, Seoul, Korea Mar 23, 2025
- Desilo, Seoul, Korea Jul 2024

Teaching Experiences

[Lecturer] Analysis of Financial Time Series, Soongsil University Fall 2024

- 금융시계열분석 (2024-2, 2150052601), Seoul, Korea
- Teaching evaluation score: 96.4 (average: 88.3)

[TA] Teaching Assistant for Prof. Jaewook Lee, SNU 2020 - 2023

- Undergraduate courses: Statistics for Industrial Engineering (Spring 2020, Spring 2022, and Spring 2023), Mathematical Methods for Industrial and Management Engineering (Fall 2020)
- Graduate courses: Data Mining Technology (Fall 2022), Advanced Topics in Statistical Learning (Spring 2023)

[Instructor, TA] Education Programs, SNU 2020 - 2023

- Instructor for Big data analysis with Python and deep learning with PyTorch in Woori Bank (2022)
- Instructor for AI practice course in Korea Institute of Startup & Entrepreneurship Development (KISED) (2022)
- TA for Machine Learning and Deep Learning for Prof. Jaewook Lee in SNU Big-Data FinTech course (2021 and 2023)
- TA for Python programming for Prof. Namhyung Kim in SNU Big-Data FinTech course (2022)
- TA for Optimization and Linear Algebra for Prof. Jaewook Lee in Samsung Data Scientist for Device Solution (2020-2022) and Industrial Bank of Korea (2020 and 2021)

Valuable Experiences

Academic Reviewers

- Journal: Pattern recognition
- Conference: CVPR, NeurIPS, ICML, ICLR, KDD

External Courses

- Algorithmic Fairness course in Graduate Summer School (LA, US)
  Institute for Pure & Applied Mathematics (IPAM) at UCLA;
  Organized by Cynthia Dwork, Guy Rothblum, and Noa Dagan Jul 2022

Scholarship

2022 - 2023	Teaching Assistance scholarship, Seoul National University, Full tuition for all semesters.
2021 Fall	Scholarship for Academic Excellence, Seoul National University, Merit-based, 30% of tuition for a semester.
2019 Spring	Scholarship for Exchange Students, POSTECH.
2018 Fall, 2019 Fall	Mentor Scholarship for IME Information System Tech, C++ programming, POSTECH.
2018 - 2019	National Scholarship for Science and Engineering, Republic of Korea, Merit-based, full tuition for all semesters.
2016 - 2017	Scholarship for Academic Excellence, POSTECH, Merit-based, full tuition for all semesters.

Skills

Programming	Python (PyTorch for AI), C++, C, LaTeX	
Leadership	Manager of Association of POSTECH Grown Companies (APGC)-Lab, POSTECH Start-up Incubator	(2018-2019)
	Member and Honorary Member of POSTECH Broadcasting System (PBS)	(2016-2018)
Language	Korean (Native), English (Advanced)
